

Blue Bio Value

What is it?

Blue Bio Value is the first accelerator that scales up marine biobased solutions to global market applications in different industries, resorting to science-based and biotech innovations, while helping to tackle important societal challenges.

We are looking for applications from across the globe to join us in the mission to accelerate the transition to a global and sustainable blue bioeconomy while promoting a productive and healthy ocean.

Agenda

The Blue Bio Value Acceleration Program will have a duration of 8 weeks between September and November. During this period, we will help you:

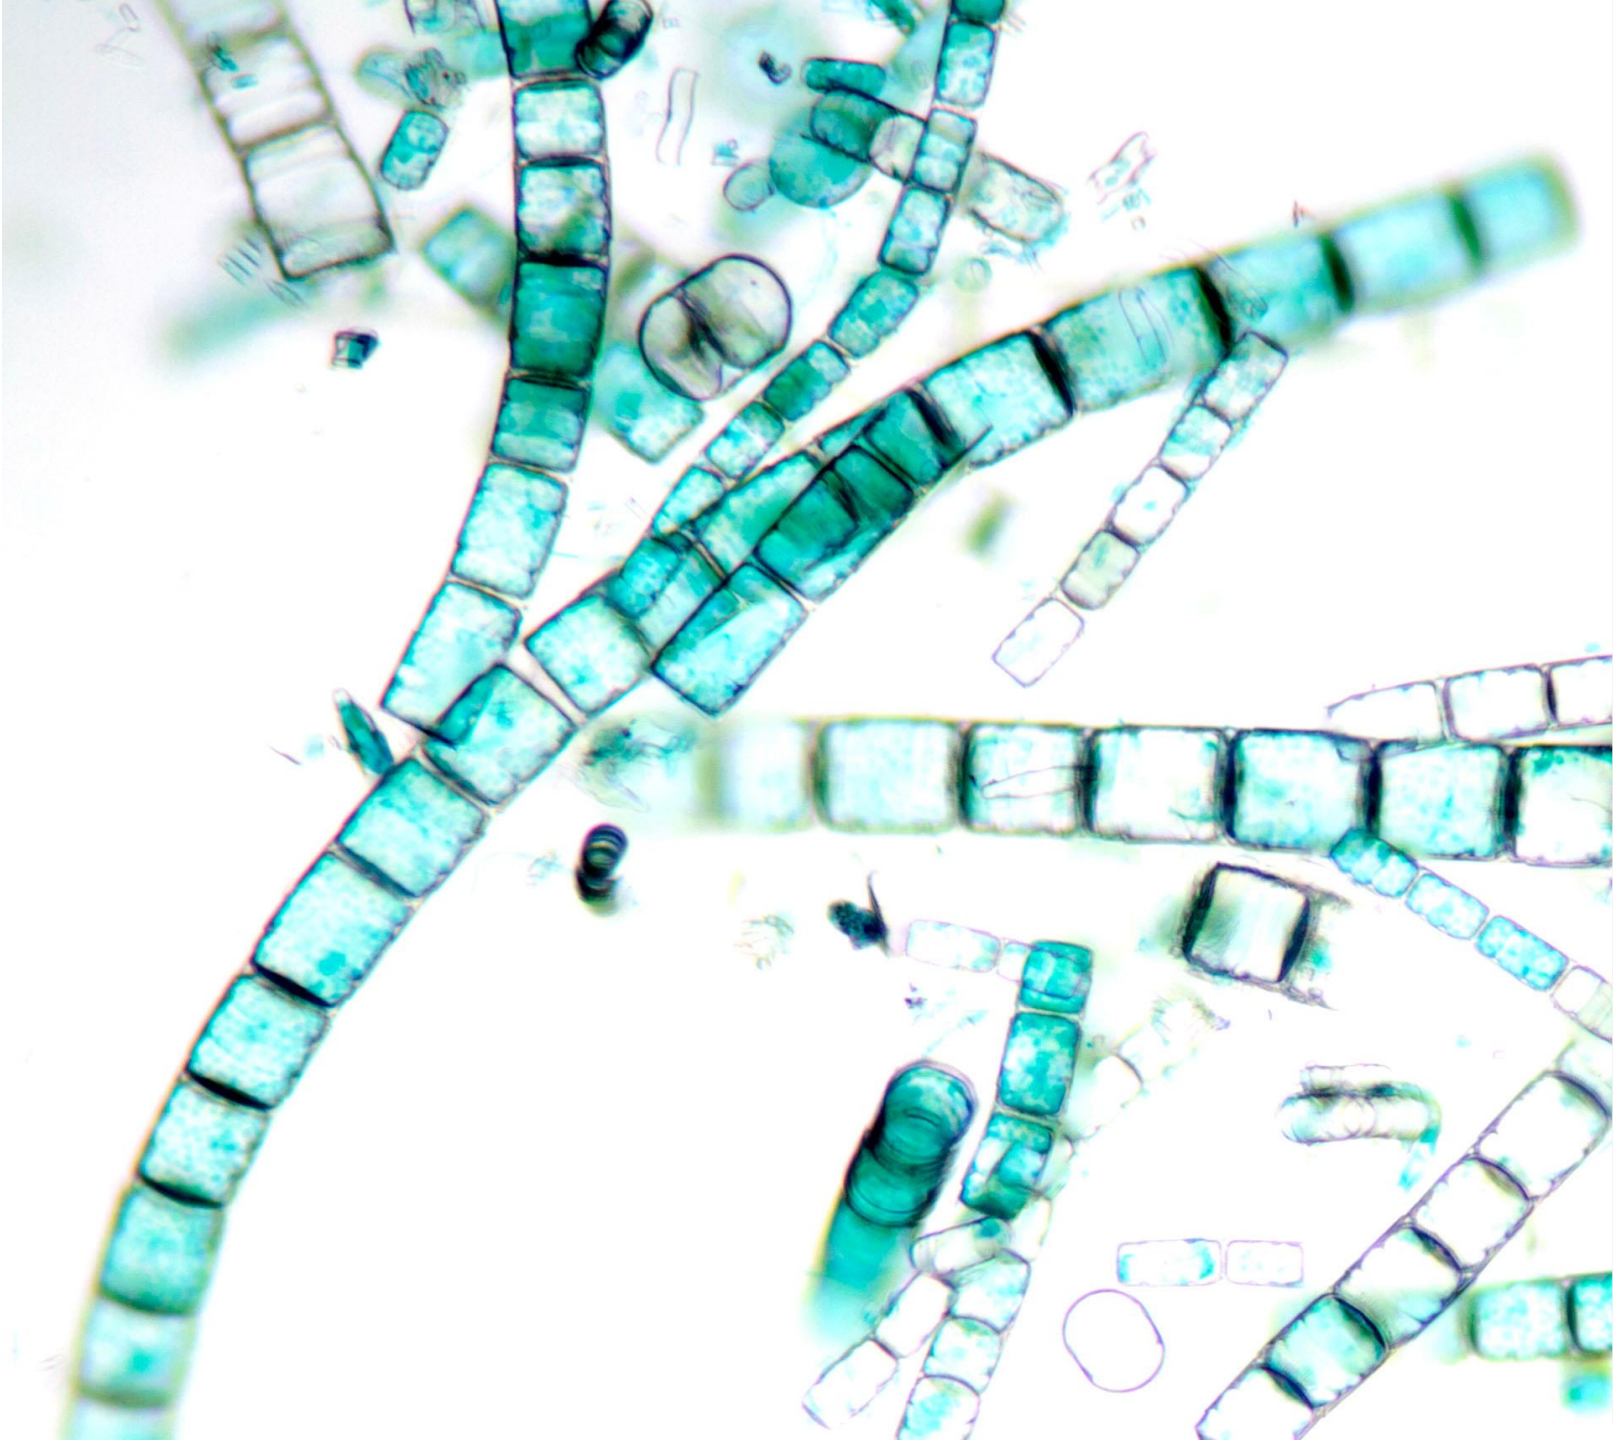

- Develop a profitable and sustainable business model;
- Validate your technology;
- Identify key customer segments;
- Build profitable customer relationships;
- Take your marine bio products to market;
- Generate revenue and be prepared for fundraising and for investor meetings;
- Acquire several business and soft skills which are key for success;
- Gain access to a unique network of mentors, partners, potential clients and investors.

Is it for me?

We are looking for aspiring and committed entrepreneurs with commercially viable projects along the value chain of marine bioresources:

- SME's or Startups at prototype or launch stages or above;
- Teams with projects with high potential to rapidly scale up to viable market applications ;
- A team of two (at least), ready to move to Lisbon for at least 8 weeks.

Perks

- ✓ 8-week acceleration program powered by Fábrica de Startups
- ✓ An international high-level network
- ✓ Travel and accommodation expenses covered
- ✓ Access to research and tech centers
- ✓ 8 weeks in Lisbon: Europe's buzzing Startup City
- ✓ So much more!

Blue Bio Value
