Technical Update EMODnet Seabed Habitats

Helen Woods, JNCC

**16th EMODnet Technical Working Group
8 October 2024**

The European Marine Observation and Data Network (EMODnet) is financed by the European Union under Regulation (EU) 2021/1139 of the European Parliament and of the Council of 7 July 2021 establishing the European Maritime, Fisheries and Aquaculture Fund.

Recent activities

- New data layers on viewer
 - MSFD benthic broad habitat types and HELCOM HUB layers
 - Reference layer of all individual models of specific habitats
- Data upload Sept 2024 – 63 new datasets
- End of year 1 – deliverable summarising all data uploaded.
- Working on flow of habitat point data with EMODnet Biology
 - How does this impact on reporting?
- EditoInfra input - refining data products to include, parameters etc

Usability of products – areas for improvement

Technical improvements

- Vocabularies
- Download options
- Geoserver improvements
- Metadata standardisation
- Tools to data use or processing?

Other improvements

- Improvements to products
 - Feedback
 - Communications/outreach
 - Methods + product explanations
- Data gaps
 - Geographic
 - Restricted data

Balance to be struck between different types of users
