

Project no.: FP6-022771

PROFET POLICY

' FISH POLICY FLOW'

Instrument: FP6 Collective Research Projects

Thematic Priority: Integrating and strengthening the European Research Area
– Specific Support Actions (SSA)

Background Policy Documents Deliverable 9

Due date of deliverable: March 2009

Actual submission date: June 2009 (after 9 workshops)

Start date of project: 1 November 2005

Duration: 39 months (incl.3 months extension)

Organisation name of lead contractor of this deliverable: FEAP

Revision: June 2009

Project co-funded by the European Commission within the Sixth Framework Programme (2002-2006)		
Dissemination Level		
PU	Public	
PP	Restricted to other programme participants (including the Commission Services)	
RE	Restricted to a group specified by the consortium (including the Commission Services)	
CO	Confidential, only for members of the consortium (including the Commission Services)	

BACKGROUND POLICY DOCUMENTS

Deliverable 9 is Background Policy Documents. The documents were prepared for grouping RTD results in respect of key policy areas and represented an ongoing deliverable that was updated through the course of the project.

Many fisheries and aquaculture stakeholders remain unaware of the research carried out that supports policy development. The Background technical leaflets produced will provide stakeholders (industry, government agencies, policy makers and the general public) with a simple summary of research, showing the nature of the scientific support to EU policy, and how this aspect fits within EU research Framework programmes.

For ease of access and cross-referencing to the different European policies that affect European fisheries and aquaculture, specific background documents will be prepared by the project consortium in order to make the presentation of both TLs and RTD results coherent in respect of such policies.

Background policy documents have been developed for the nine workshops; the background documents prepared for the two first workshops were already reported in the second annual report of the project.

List of all Policy background documents.

20 backgrounds documents were produced, during this third period, 8 additional background documents were prepared and published in the compilations of TLs as well as on the website of the project.

Below are listed all different background documents of themes within the policy of Aquaculture and Fisheries.

General documents Fisheries and Aquaculture

- European policy
- Market policy
- Research objectives

Aquaculture

- New technologies, Infrastructure and Information Technology
- Sustainable Feeds for Fish Farming
- Control of diseases and infections in aquatic animals
- Environmental issues concerning aquaculture
- Aquaculture Welfare projects
- Training and Education Issues concerning aquaculture
- Diversification and Conservation concerning aquaculture
- Food safety, quality, traceability and marketing
- Genetics and Genomics
- Restocking: the eel case

Fisheries

- Ecosystem approach to fisheries management
- Scientific advice to fisheries management
- Technical measures
- Long-term Management and Recovery Plans
- Monitoring and control of fisheries activity
- Socio-economic dimensions of fisheries activity
- Data Collection and Analysis in the Formulation of Scientific Advice
- Impact of Regulations (TCMs) on Fishing Effort (Fleet Dynamics) and Fishing Mortality
- Fisheries Management and Stakeholder Involvement
- Fisheries & Aquaculture Management and the Conservation of Species Diversity
- Improvements in fishing technology to reduce by-catch and discards
- Marine Protected Areas (MPA)
