REALISATION OF WORKSHOPS

Deliverable 15 is the realisation of the workshops. The workshops will serve as a platform for updating the stakeholders on RTD actions, their relations to policies and the professional sectors of fisheries and aquaculture. They will also provide an interactive forum for debate on the role of European RTD and how it can support the needs of and issues facing of European fisheries and aquaculture and their individual sub-sectors.

The workshops will each provide the opportunity for presentation and debate of the issues identified by the different sub-sectors of European fisheries and aquaculture, putting accent on regional specificities. Key speakers will provide the background topics and guidance, while experienced professionals will discuss these issues in the light of their experience. Discussion and debate on the identified problems and requirements of the sector for RTD projects will be led by the Chairs/Rapporteurs, whose preliminary results will be made available in Session IV.

The progress and achievements of the project partners and thematic networks dedicated to fisheries and aquaculture will be presented on demonstration stands, providing documentation and project displays.

The Profet Policy project organises 9 workshops during the course of the project. The realisation of the fourth workshop is discussed in this document.

Fourth Profet Policy Workshop: What future for Mediterranean Marine Aquaculture?

Athens (Greece), 22 & 23 November 2007

This workshop was held for all stakeholders of the aquaculture sector in the Mediterranean countries. It served as a unique platform for the exchange of views and opinions on future research needs and other critical issues affecting Mediterranean Marine Aquaculture.

The main sessions include:

- Regional development and role of Research
- Policy & regulatory framework
- RTD needs related to European policies
- RTD needs and sustainable development
- Support for development
- Future research needs

The scope of the sessions is explained in more detail in deliverable report nr. 14 'Individual workshop scope and objectives'.

Target audience of the Workshop

159 participants attended the workshop from nine countries including scientists, international organisations, NGOs, government representatives, 4 European Commission representatives and a very large number of fish farmers.

The workshop was held in English with simultaneous Greek translation.

The workshop was organised by the FEAP and the Federation of Greek Maricultures (FGM), a FEAP member Association.

Contact person: Catherine Pons (FEAP secretariat) and Akis Ventiris (FGM Manager)

General information

Aquaculture is for Greece the biggest national exporting activity, creating lots of employments and therefore the PROFET Policy workshop received big support from the Greek government. The workshop was opened by A. Kontos, Minister of Rural Development and Food, T. Skilakakis, General Secretary Ministry of Foreign Affairs and P. Papastavrou, President of the Hellenic Export Promotion Organization.

Mr. Waddah SAAB Member of Cabinet for Commissioner Joe Borg (Fisheries and Maritime Affairs) presented the EU Maritime Policy and the implications to Mediterranean Aquaculture, Mr. Jean Weissenberger, Aquaculture Unit - DG Fisheries and Maritime Affairs (EC) presented the review of the Commission's Strategy for the Sustainable Development of Aquaculture, Dr. Stamatis Varsamos, DG Fisheries and Maritime Affairs (EC) explained the Community Research Support for Mediterranean Aquaculture in FP6 and Mario Lopes Santos - DG Research (EC) informed the audience with the impact on and opportunities for aquaculture within the 7th Framework Programme.

Senior scientists highlighted the priorities for research in aquaculture science, IUCN showed the interface of Aquaculture with the Environment, and experienced Industry representatives gave talks on the future of hatcheries in the Mediterranean and on the future of fish feeds. Many participants openly took part in the discussion.

Specific printed compilations that relate to the individual workshop theme were provided to each participant. The compiled abstracts will act as a stimulus for stakeholder attendance, where circulation will be made in printed form (through networks & Associations) as well as electronically (using the Project Partner and Network websites).

Compilation of abstracts

The presenters of the presentations received well in advanced the guidelines for preparing abstracts and presentations. The guidelines provided some advice for setting up the presentation and gave information about the expected audience of the workshop.

Each presenter had to deliver a short abstract of their presentation in English (10-15 lines) and a short (5 line maximum) biography to the FEAP secretariat two weeks before the workshop. The abstract and the biography were distributed at each Workshop.

The guidelines for preparing abstracts and presentations and the compilation of abstracts of the workshop in Athens can be found in Deliverable report nr. 16: 'Workshop presentations'.

Reception
