PROCESSING AND PUBLICATION OF PRESENTATIONS ON WEBSITE

Deliverable 17 is the processing and publication of presentations on the Profet Policy website. After each workshop the FEAP secretariat uploads the presentations on the website.

The presentations of two first workshops were delivered in the Del.17 due by October 2007, the presentations made during the workshops nr.3 to nr.9, i.e.:

1. Workshop nr.3 on Technical Conservation Measures
Dublin (Ireland), 13 & 14 September 2007

were uploaded on the website via Robopresenter or as pdf file and are attached to this document.

⇒ **Via Robopresenter**

Most of the PowerPoint presentations of the workshops were converted via RoboPresenter to a Flash format, which cannot be copied. This respects the IPR of the presenter of the work.
The interface of Robopresenter is presented below.

The slides index within RoboPresenter refers to the interface area where the titles or headings for each slide are listed. If users prefer to show thumbnails as opposed to slide titles/headings, they may do so. This feature allows users to always see where they are in a session as well as what is ahead. Users may also navigate through the presentation by clicking on the slide outline title or thumbnail. The content area will change to the selected slide.

One of the other advantages of presenting the presentation via RoboPresenter is that the presentation also includes information about the presenter and it has the ability to email the presenter at any time during the presentation. Users who click on the Bio box will see a box that contains the bio abstract of the presenter including a picture of the presenter. Clicking on the Email button will launch the user's own email application with the presenter's email address already added.

⇒ **As PDF file**

Some of the PowerPoint presentations of the workshops were converted as PDF file, or on request of the speakers or because the powerpoint given by the speaker was too heavy or was incompatible with RoboPresenter.

If there is no presentation's link on the PROFET policy website for a speaker, it's on request of the speaker himself.
