REALISATION OF WORKSHOPS

Deliverable 15 is the realisation of the workshops. The workshops will serve as a platform for updating the stakeholders on RTD actions, their relations to policies and the professional sectors of fisheries and aquaculture. They will also provide an interactive forum for debate on the role of European RTD and how it can support the needs of and issues facing of European fisheries and aquaculture and their individual sub-sectors.

The workshops will each provide the opportunity for presentation and debate of the issues identified by the different sub-sectors of European fisheries and aquaculture, putting accent on regional specificities. Key speakers will provide the background topics and guidance, while experienced professionals will discuss these issues in the light of their experience. Discussion and debate on the identified problems and requirements of the sector for RTD projects will be led by the Chairs/Rapporteurs, whose preliminary results will be made available in Session IV.

The progress and achievements of the project partners and thematic networks dedicated to fisheries and aquaculture will be presented on demonstration stands, providing documentation and project displays.

The Profet Policy project organises 9 workshops during the course of the project. The realisation of the sixth workshop is discussed in this document.

Sixth Profet Policy Workshop: Mediterranean Fisheries

Marseille (France), 12 & 13 June 2008

This workshop was held for all stakeholders of the fisheries sector in the Mediterranean countries. It served as a unique platform for the exchange of views and opinions on future research needs and other critical issues affecting Mediterranean fisheries.

The main sessions include:

- Scientific research in the field of fisheries in the Mediterranean Sea
- The institutional viewpoint
- Elements required for a better fishery management in the Mediterranean Sea – Industry viewpoints

The scope of the sessions is explained in more detail in deliverable report nr. 14 'Individual workshop scope and objectives'.

Target audience of the Workshop

The event in Marseille was unfortunately poorly attended due to, among other, the unforeseen fuel crisis which had to be dealt urgently by the Fishermen. Moreover, unlike other Fisheries, the Mediterranean had no RAC in place and then fewer networks to promote the event. 30 participants from 7 countries, including representatives from the Community Agency for Fisheries Control in the Mediterranean attended the workshop.

Nevertheless, the workshop appeared to be a very good opportunity to exchange views and opinions on future research needs.

The workshop was held in French with simultaneous English translation

Organisation

The workshop was organised by Mrs Francisca Martinez helped by the FEAP.
Contact person: Francisca Martinez and Catherine Pons (FEAP Secretariat)

General information

The workshop was opened by the President of the Regional Committee for Fisheries and Aquaculture of the PACA Region and by the Chairman of the workshop Mr Corrado Piccinetti from the Laboratory of Marine Biology and Fisheries of the University of Bologna in Fano.

Mr Jacques Fuchs, DG MARE C/4 Research and scientific data management (EC) explained the EU research agenda in the field of fisheries in the Mediterranean Sea, he also explained on behalf of Kathrine Angell-Hansen the new European Maritime Policy and ended with the future opportunities for research projects in the fisheries sector.

Mr Harm Koster, Community Agency for Fisheries Control in the Mediterranean Sea presented the "Joint Deployment Plan", which was followed by talks from the industry points of view. This topic has not failed to generate debate.

Hotels

Participants had to book and pay for the accommodation themselves. A list of hotels in Marseille was available online.

Registration and registration fee

The participants had to download the registration form from the Profet Policy website and fax or email it to the FEAP secretariat. The total fee of the workshop was 50€ to be paid cash at the registration desk of the workshop on Thursday morning.

Compilation of Technical Leaflets

Specific printed compilations that relate to the individual workshop theme are provided to each participant. The compiled abstracts will act as a stimulus for stakeholder attendance, where circulation will be made in printed form (through networks & Associations) as well as electronically (using the Project Partner and Network websites).

Compilation of abstracts

The presenters of the presentations received well in advanced the guidelines for preparing abstracts and presentations. The guidelines provided some advice for setting up the presentation and gave information about the expected audience of the workshop.

Each presenter had to deliver a short abstract of their presentation in English (10-15 lines) and a short (5 line maximum) biography to the FEAP secretariat two weeks before the workshop. The abstract and the biography were distributed at each Workshop.

The guidelines for preparing abstracts and presentations and the compilation of abstracts of the workshop in Marseille can be found in Deliverable report nr. 16: 'Workshop presentations'.
