## Maintenance

### Most relevant improvements

- Improvement of CMS to support translations
- Enable the print and measure tools by default
- Layer catalogue: Groups and layers sorted alphabetically
- Overview section:
  - Go back to the “Atlas Home” with a button
  - Groups and layers sorted alphabetically
- Embed Atlas in Iframe
- Feedback form update
- Link new survey

### Bug fixing and support

- Bugs related to the interactive help
- Bug related to the maps with time-slider
- Print tool: issue with vessel density layers
- My maps: XSS vulnerability (detected in staging)

All releases are **tested** and reviewed by ours UX experts
