Crecimiento Azul

en el Mediterráneo: Perspectiva de España

Palma de Mallorca
2-3 de mayo 2013

Maritime Affairs
and Fisheries

Day 1: Opening Session

- **Spanish Government presentation: Alejandro Abellán, Director General for Common Policies and General Affairs UE of Foreign affairs and Cooperation.**
- **Balearic Islands Regional Government representation: Antonio Deudero, Director General for ports and Airports of the Regional Government of the Balearic Islands.**
- **DG-MARE representation: Beate Gminder, Head of Unit for Maritime Policy in the Mediterranean and Black Sea – DGMARE.**
- **Vice-President of the Spanish Maritime Cluster: José Luis Cerezo Preysler.**

Day 1: General Session

- **European financial framework 2014-2020.** Priorities for the Blue Growth, through the different European financial programs. *Moderator: Anna Repullo Grau, DG-REGIO*
- **The European Clusters and their essential role in the PMI development:** the Spanish State's experience. *Moderator: Pablo Peiro, Spanish Maritime Cluster*
- **Social & Integrated Growth:** the encouragement of the undertaking in maritime&marine activities and the financial support. *Moderator: Iolanda Piedra. Cluster Marítimo Illes Balears*

Day 1: General Session (cont.)

- **PMI – The experience of same member State in the elaboration of a Blue Book.**

***Moderator:** Teresa Molina, and 3 representatives of a member State with a Blue Book:*

***Portugal:** Margarita Almodovar, General Director of Maritime Policy*

***Ireland:** Geoffrey O’Sullivan, Senior Policy Advisor – International Co-operation Office of the CEO Marine Institute*

***France:** Michel Aymeric, General Secretary of the Sea.*

Day 2: Workshops

- **Workshop 1:** Maritime Security and integrated management of emergencies, threats and prevention of the maritime risks
- **Workshop 2:** Marine Research: Contribution to science, industry and needs of society, support elements for IMP
- **Workshop 3:** Priorities of investments and funding
- **Workshop 4:** The Ecosystem approach: maritime spatial planning/marine reserves/aquaculture and fisheries
- **Workshop 5:** Blue economy in the maritime sector: innovation & technology in marine/maritime industries
- **Workshop 6:** Maritime and Coastal Tourism
- **Workshop 7:** Insularity: Differential fact. Unbalance between continental lands and the resolute maritime political action to balance it. Simple insularity, double and triple insularity. Common problems of the island regions.

Workshop 1

Maritime Security and integrated management of emergencies, threats and prevention of the maritime risks

- 1) The need of a common strategy
- 2) Monitoring and predicting activities guided to maritime security
- 3) Policing Maritime borders
- 4) Western Mediterranean Operational Forecasting System; Science, tools and response to society needs
- 5) An analysis of maritime emergencies in the Balearic Sea, their solution and prevention
- 6) Jovellanos Center: 20 years innovating and learning security
- 7) Pollution prevention of hydrocarbon from the air

Workshop 2

Marine Research: contribution to science, industry and needs of society, support elements for IMP

1. Scientific knowledge in marine research as a supportive element to the IMP
2. Marine Research Infrastructures to support IMP. The impact of new multi-platform observing systems responding to science, technology and society needs
3. ICAM and MSP: Facilitating tools for solving conflicts and overcoming the science-policy gap
4. European research coordination: SEAS-ERA and the JPI Healthy and Productive Seas and Oceans
5. STAGES: Connecting science to policy to support MSFD implementation
6. Research and innovation in fisheries and aquaculture: priorities in science, industry and society in the context of the IMP in the Mediterranean Sea
7. Researching in sustainability of marine living resources: the impact of Mediterranean variability on bluefin tuna spawning grounds and population dynamics

Workshop 3

Priorities of investments and funding

1. Strategies and objectives of investment and funding for the Mediterranean regions of Spain
2. Analysis of infrastructure and logistics at Mediterranean level
3. The necessary investments to get a good governance
Investment goals having a social character: training and sea sector

Workshop 4

The ecosystem approach: maritime spatial planning/marine reserves/aquaculture and fisheries

1. Transboundary Planning in the European Atlantic (TPEA)
2. Interministerial Commission for Marine Strategies
3. A new way for the coastal management: the new Law of Coast
4. Aquaculture. “Mediterrane-On Project”.
5. The Marine Reserves in the Mediterraneo. Perspectives for the future
6. Common Fisheries Policy. “Fisheries management in the Mediterraneo. Perspectives for the future”
7. The responsible recreational fishery, a sustainable model

Workshop 5

Blue economy in the maritime sector: innovation & technology in marine/maritime industries

1. Public-private strategy for coordination of activities in marine energy in Spain. Test centers and industry
2. Opportunities for the private sector in the implementation of the IMP
3. Innovations for implementing the Marine Strategy Framework Directive (MSFD)
4. Ship's safety regulations under development
5. LNG Vessels
6. The new environmental requirements for the sustainability of the Mediterranean Sea: the Spanish Shipbuilding Industry is ready to attend them
7. Autonomous underwater vehicles for pipeline inspection and subsea leak detection

Workshop 6

Maritime and Coastal Tourism

1. Report of the Economic and Social European Committee
2. Taxes on the leisure tourism in the different European Member States
3. The future of the big yacht as the cause of a high quality tourism
4. Reality and future of the Maritime and Coastal Tourism in Balearic Islands
5. Fishery – Tourism
6. The role of the sportive ports in the coastal and leisure tourism
7. The leisure activity as key for the sustainability of the coastal and maritime tourism

Workshop 7

Insularity: differential fact.

Unbalance between continental lands and the resolute maritime political action to balance it. Simple insularity, double and triple insularity. Common problems of the island regions

1. Maritime Transport of people and merchandise: motorways of the sea
2. Economic aids: the Spanish case (resident discounts)
3. Public service statement of maritime routes (frequencies, intervention in tariffs)
4. Merchandise supply/dangerous merchandises/cost-effective freight in a single ride
5. Ports taxes/policy bonuses or exemptions. The problems of the costs of transport to the competitiveness and export capacity of the companies in the Balearic Islands
6. The removal of the 150 km criterion for cross-border cooperation carried out by island regions

Day 2: Closing Session

- Rafael Rodríguez Valero, General Director of Merchant Marine, Ministry of Public Works – State General Administration.
- Beate Gminder, DGMARE.
- Antonio Deudero, Direction General for Ports and Airports of the Regional Government of the Balearic Islands.
- Iolanda Piedra, Maritime Cluster of Balearic Islands.

Thank you
