- Dissemination of the results of previous projects and synergies on coastal area management in Agria (MedCOAST.Net, INTERREG IIIB Archimed Initiative co-funded by the EU) and good practices from other EU Countries Initiatives (COASTMAN, OURCOAST, QualityCoast, CoPraNet ect)
- Environmental Management of Urban Coastal Areas
- Climate Change
- Responsible Tourism forms in Coastal Areas
- Panel Discussion: "Lessons learned and the way ahead"
- Press Conference

Students Competition on Coastal Cleaning (10:00-13:00)

Elementary school students will take part to the cleaning of the coastal area of Agria, in order to raise their awareness and develop responsible behavior on environmental protection. The activity will be implemented as competition in order to have motivation.

Awareness Raising (9:30 – 20:00)

Info centers will be established in the coastal area of Agria during the EMD, for the information and awareness raising of the residents and visitors, mainly younger ages, about the environmental risks of the coastal areas and good practices for the environmental protection.

Exhibitions of kids paintings on coastal themes in cooperation with the cultural organization of Municipality of Agria (18:00 – 20:00)

Closing event
