

Your gateway to marine data in Europe

EMODnet

Introduction to the European Marine Observation and Data Network

E.M.
Odnnet

EMODnet Family

EMODnet

European Marine
Observation and
Data Network

EMODnet Communication, Dissemination & Outreach (WP3)

Background & Rationale

- ⦿ EMODnet infrastructure and resources have been built in Phase I & II, huge progress.
- ⦿ At the onset of Phase III, EMODnet is now mature enough to provide real value for money for stakeholders/users.
- ⦿ EMODnet sits in a complex landscape – this limits the visibility and usability of EMODnet.

EMODnet must now increase communication to promote its visibility and increase uptake of its resources, so that it is recognised within Europe & globally as Europe's primary and trusted source of marine observation data and information and to justify the public investment in EMODnet.

3/28/2019

EMODnet

Communication Strategy

Objectives

- ④ Create & implement a **strong visual EMODnet identity** - a powerful & recognizable **brand and style**;
- ④ Widely **disseminate information** about **progress, outputs and activities** to partners, stakeholders and users using a range of media & activities, by:
 - ④ Dynamic & animated EMODnet website;
 - ④ Via DG MARE's Maritime Forum;
 - ④ Social media & other news outlets;
 - ④ Giving demonstrations & presentations throughout Europe;
 - ④ Annual reports
- ④ Provide **tools to support EMODnet partners** (multipliers) to **spread coherent messages** - brochures, fact sheets, news items, flyers, leaflets, reports, posters, and banners.

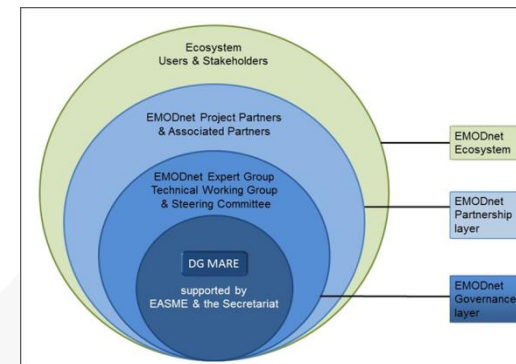

EMODnet

Communicating to EMODnet Stakeholder Ecosystem

Four levels of communication, to:

- 🎯 **EMODnet partners** to inform on all activities & multiply the channels;
- 🎯 **Potential users and data providers**, to increase re-use of marine data & uptake of EMODnet's products and services;
- 🎯 **Funders** of marine data initiatives & **general public & stakeholders** to **highlight the societal and economic relevance of EMODnet & the benefits of collaboration**;
- 🎯 The **European and global ocean observing & data management community**, to communicate EMODnet's technical achievements and promote collaboration.

EMODnet

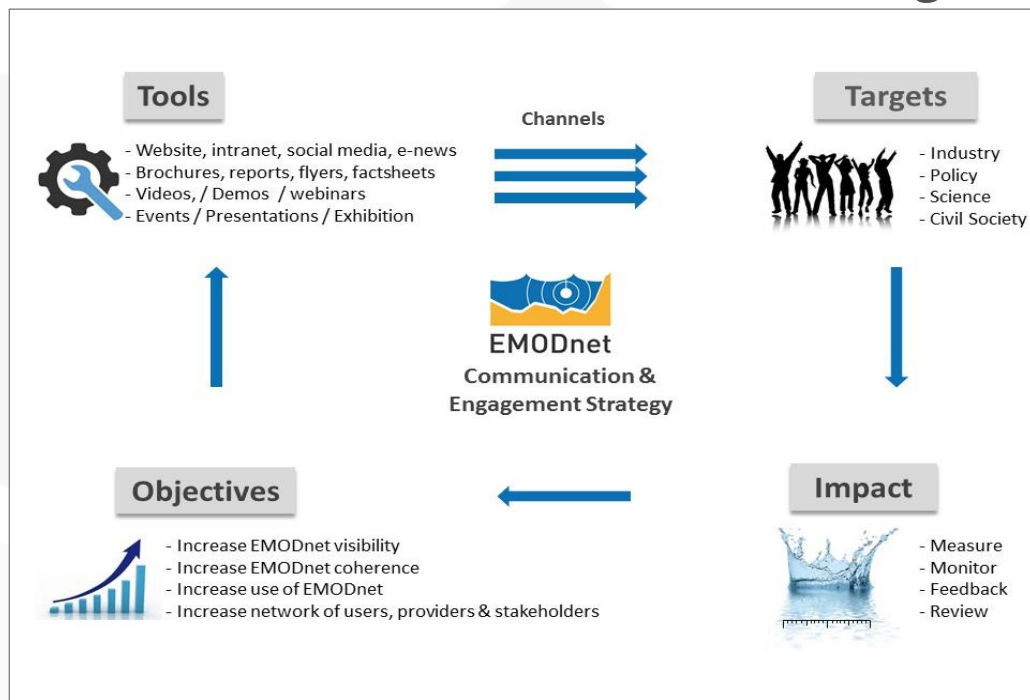

Phase III Communications Tasks

Task 3.1: Developing and maintaining a coherent EMODnet Communication and Stakeholder Engagement Strategy for Phase III

This **Strategy** will be available to all partners, so that all **communication, dissemination and outreach is coherent**. It will include the following components:

- Objectives
- Targets
- Messages
- Channels
- Branding
- Guidelines
- Tools, products & activities
- Metrics

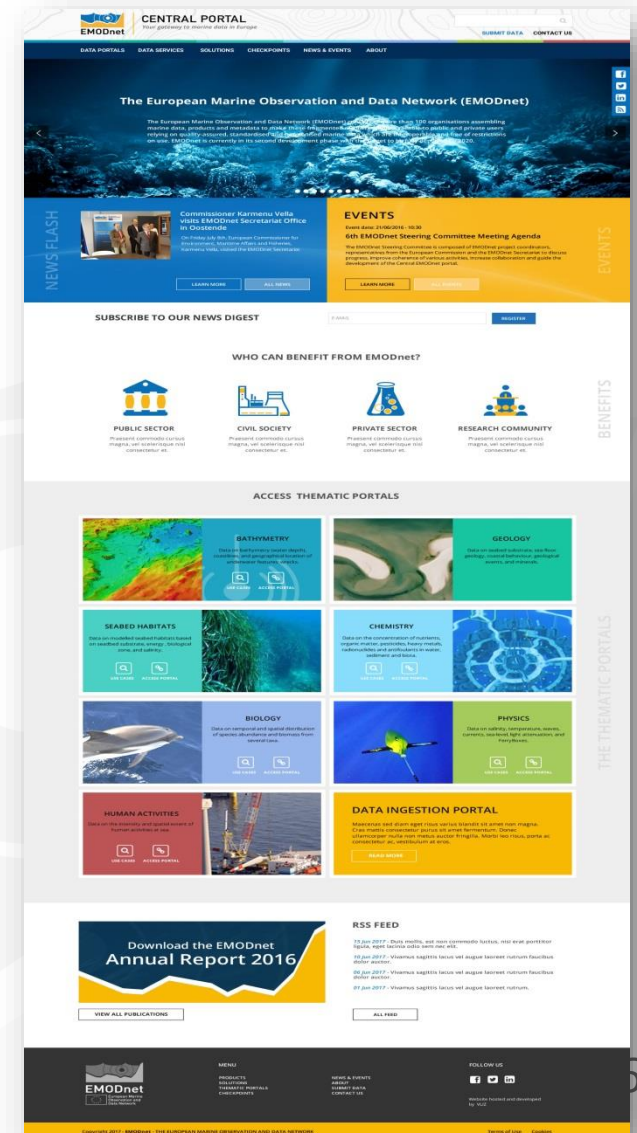

EMODnet

Phase III Communication Tasks

Task 3.2: Maintain and further develop the EMODnet website

Task 3.3. Animate the EMODnet web-presence (news items / digests / flashes, SEO, social media)

EMODnet

European Marine
Observation and
Data Network

Phase III Communications Tasks

Task 3.4: Communications toolkit

- 📍 Brochure, flyer, posters, banners, infographics, presentations, videos
- 📍 A combined EMODnet products portfolio/catalogue.
- 📍 'EMODnet for business' brochure
- 📍 Modular communication package
- 📍 EMODnet partnership leaflet 'EMODnet: Who We Are'

EMODnet

Observation and
Data Network

Phase III Communications Tasks

Task 3.5: Professional quality annual reports

Box 3.1. Indicative table of content for the Annual Progress Report 2018 for illustration

- Foreword
- EMODnet in a nutshell
- EMODnet progress in 2018
- EMODnet 2018 Achievements
 - EMODnet data portals
 - EMODnet Sea-basin Checkpoints
 - Data Ingestion Service
 - EMODnet for business
 - EMODnet for internationalisation
- How EMODnet provides solutions
 - North Sea Transboundary MSP
 - EMODnet OpenSea App
 - Atlantic Trail tourism
 - MSFD in Gulf of Cadiz
 - Environmental data for dredging industry
 - Aquaculture in Galway Bay
- EMODnet and others: Developing Synergies
- EOOS Conference
- Forward look: EMODnet in 2019 and beyond
- Budget
- Conclusions and remaining challenges
- The EMODnet team

EMODnet

Phase III Communications Tasks

Task 3.6: Delivering demonstrations and presentations of EMODnet

The image displays a sequence of screenshots from the EMODnet website, illustrating the process of accessing and downloading bathymetry data. The steps are as follows:

- Step 1 Click 'access data'**: The user navigates to the 'access data' section of the EMODnet website.
- Step 2 Launch 'interactive map'**: The user launches the interactive map interface.
- Step 3 Go to map layers**: The user navigates to the 'map layers' section.
- Step 4 Choose map layer**: The user selects a specific map layer from the available options.
- Step 5 View with key**: The user views the selected map layer with a legend (key) to understand the data values.
- Step 6 Click download layer**: The user clicks on the 'download layer' option for the selected map layer.
- Step 7 Click 'data download'**: The user clicks on the 'data download' button to initiate the download process.
- Step 8 Complete form'**: The user completes a form to specify download parameters.
- Step 9 Download Data**: The user successfully downloads the data.

A detailed view of the bathymetry interface shows the following steps:

- 1. Depth profile**: The user views a depth profile plot.
- 2. Draw a transect**: The user draws a transect on the bathymetry map.
- 3. View the profile**: The user views the resulting depth profile graph.

EMODnet

Phase III Communications Tasks

Task 3.7. Act as primary contact point for queries on EMODnet

- ④ Assess, respond to or redirect queries to the relevant portals/contacts as appropriate.
- ④ Compiling information on EMODnet, in terms of how it is used and how its services can be improved.
