

WELCOME TO EMODNET STEERING COMMITTEE

GILBERT MAUDIRE
HEAD OF INFRASTRUCTURES
AND INFORMATION SYSTEMS
DEPARTMENT

23 MAY 2023

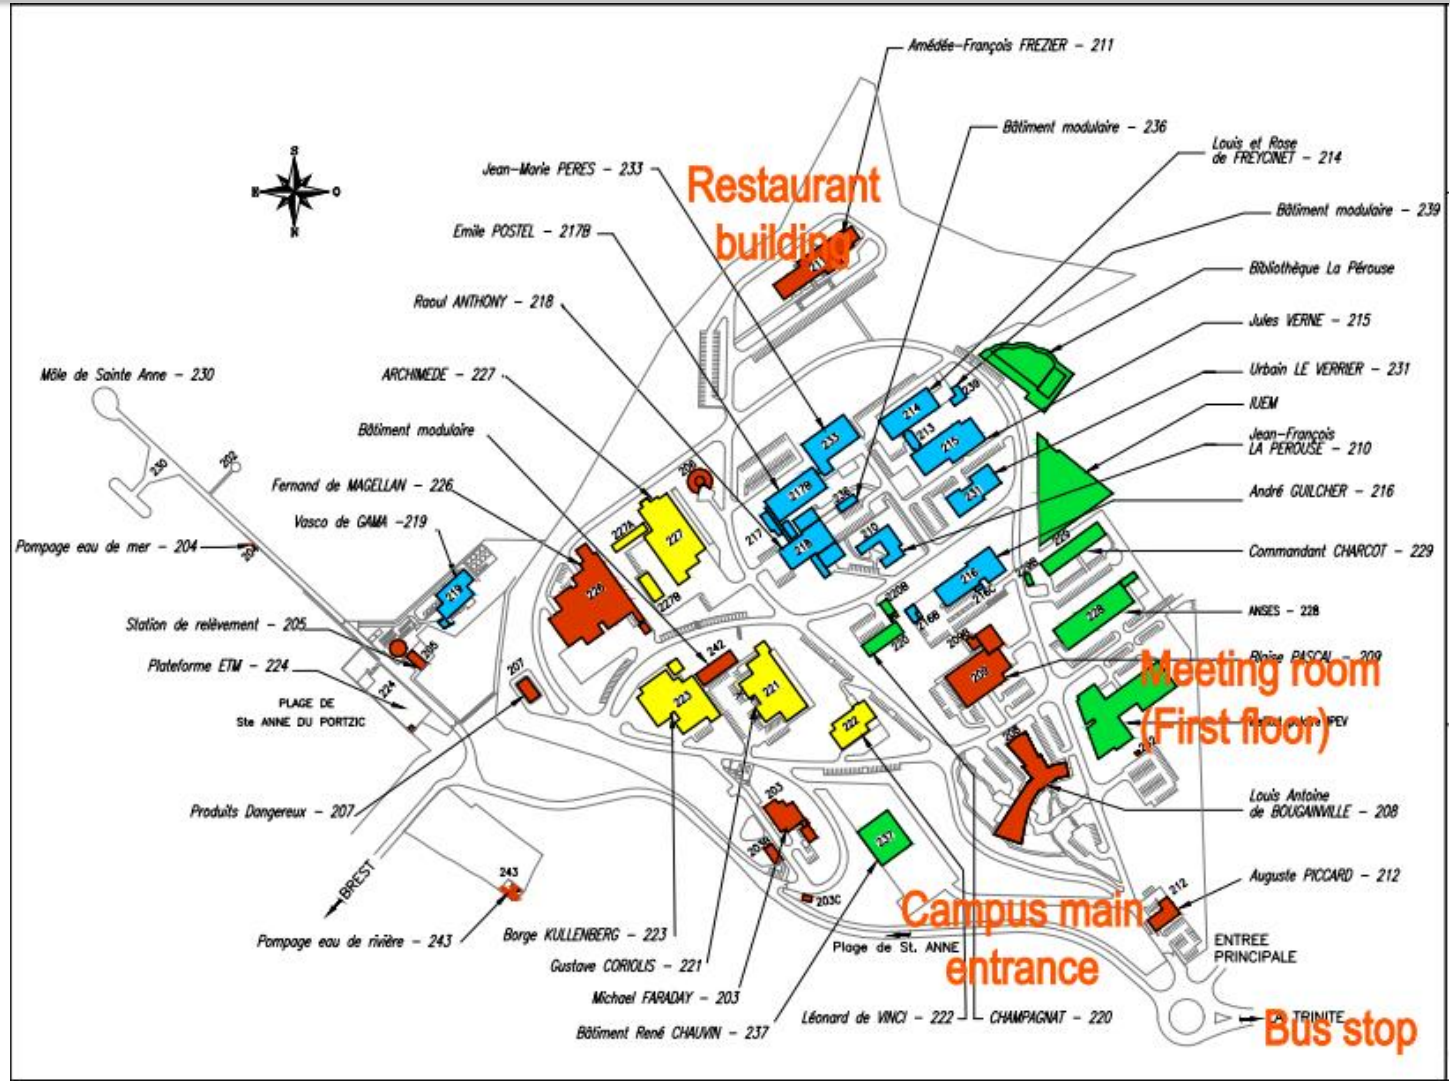

Welcome in Brest and at Ifremer Campus for this EMODnet steering Committee!

Thanks to French Polar Institute (Paul-Emile Victor) for hosting the meeting.

Are located in Brest:

- Around 3000 researchers and engineers for marine sciences (CNRS, Ifremer, IRD, SHOM, ...)
- Several universities and schools with marine related courses
- Research Infrastructures (French Research Fleet, ARGO ERIC, Datarmor data centre, ...)
- One international organization (WMO/COI OceanScope)
- Several private companies dedicated to marine activities (sensors and equipments, observation at sea, laboratories, models, satellite...)

Two coffee breaks will be served in or near this room
Lunch at Ifremer restaurant (around €10 depending on what you ask for)
Ground transportation to Brest city centre (Line 2 – every 30mn)

- Ifremer involvement in EMODnet
 - Data provision
 - Participant to several thematic lots
 - Technical support via SeaDataNet research data infrastructure

- Ifremer : research institute interested in
 - Developing new observation/ new data processing methods
 - Developing observation at sea

- Could EMODNet support such new initiatives? For example
 - Optical / acoustic underwater imagery : machine learning (IA) for image processing (taxa recognition, habitats, ...)
 - Genomic data management and processing such as environmental DNA/ NRA (populations)
 - Provision of instruments to be ready for deployment in case of crisis (heat waves, plankton blooms, ...)

Have a nice steering committee!
