

2018 time-line: Stakeholder events and delivery of Strategy and Implementation Plan

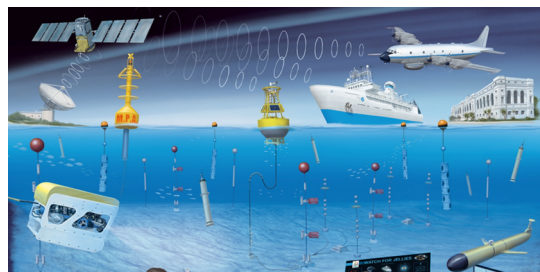

23 March 2018

What is EOOS?

An inclusive framework for enhancing coordination and connection of Europe's ocean observing capability:

- From physics to biogeochemistry and biology;
- From automated monitoring to citizen science;
- Driven by stakeholders, for stakeholders/users;
- Building and aligning with existing efforts.

Why EOOS?

Added value: Connect and align stakeholder communities and observing programmes to make a more efficient, fit-for-purpose system that is sustainable to underpin the rest of the ocean observing value chain.

EOOS Vision: To have by 2030, a coordinated and connected end-to-end European ocean observation community that promotes European leadership, innovation and sustainability for in water ocean observation, driven by stakeholders, for stakeholders, serving the needs of science and society.

Who is EOOS?

- A community-driven initiative
- EOOS Steering Group, co-Chaired by EuroGOOS and European Marine Board
- Connecting Europe's diverse ocean observing stakeholders, co-designing EOOS developments

Connecting people and observing systems

“EOOS is intrinsically a bottom-up process, elements of which are already taking place at various geographical scales.”
