Blue Growth!

Europe's Maritime Industry Future by 2020

A strategy for Blue Growth!

- MIF stands for strategies to turn the environmental challenge into business opportunities
- MIF industries invest in hi-tech marine innovation, green technologies and advanced service solutions to address the demand for more environmental friendly products
- MIF industries maintain and enhance the global leading position of European shipping as well as consolidate the position of shipping as the most energy efficient mode of transport

Europe's Maritime Industry Future by 2020

A strategy for Blue Growth!

- MIF industries design new ship types for new markets (arctic voyages, offshore services)
- MIF industries invent renewable ocean energy technologies contributing to a reduction of emissions
- MIF industries present coastal protection technologies in order to address rising sea levels
- MIF industries undertake campaigns to attract the best young people into maritime professions and identifies opportunities for mobility between sea- and shore based job profiles.

Europe's Maritime Industry Future by 2020

A strategy for Blue Growth!

- MIF industries manage the current financial, economic and environmental challenges, but need appropriate regulatory framework
- MIF industries considers protectionist policies should be countered and ask for the creation of a global level playing field
- MIF industries require continuous commitment to safeguard the European technological excellence and to protect European know how
- MIF requires to ensure rules on safety and environmental protection to be applied properly

Europe's Maritime Industry Future by 2020

A strategy for Blue Growth!

- MIF supports “Europe 2020: a strategy for smart, sustainable and inclusive growth” and thus supports the Commission’ Integrated Maritime Policy Approach
