

# PROJECT 501

Preparatory studies

# 501

Governance 01

# Agenda

- Background
- Outcomes
- Outputs
- Participants
- Methodology

# Background

- Lack of information
- Duplicated information
- CISE initiatives' experience
- NIPIM@R project and product
- Low motivation for info sharing
- Distrust in a common tech. solution
- Disparate legal framework interpretations
- Low availability

# Outcomes

- **NIPIM@R adopted for info sharing**
  - Authorities with systems connected to NIPIM@R 6 (2)
- **Increased systems interconnected**
  - Systems interconnected through NIPIM@R 6 (2)
- **Increased motivation for info sharing**
  - Authorities sharing info through NIPIM@R 5 (2)
- **Enhanced legal framework**
  - Authorities adopting a common instrument 10 (0)

# Outputs

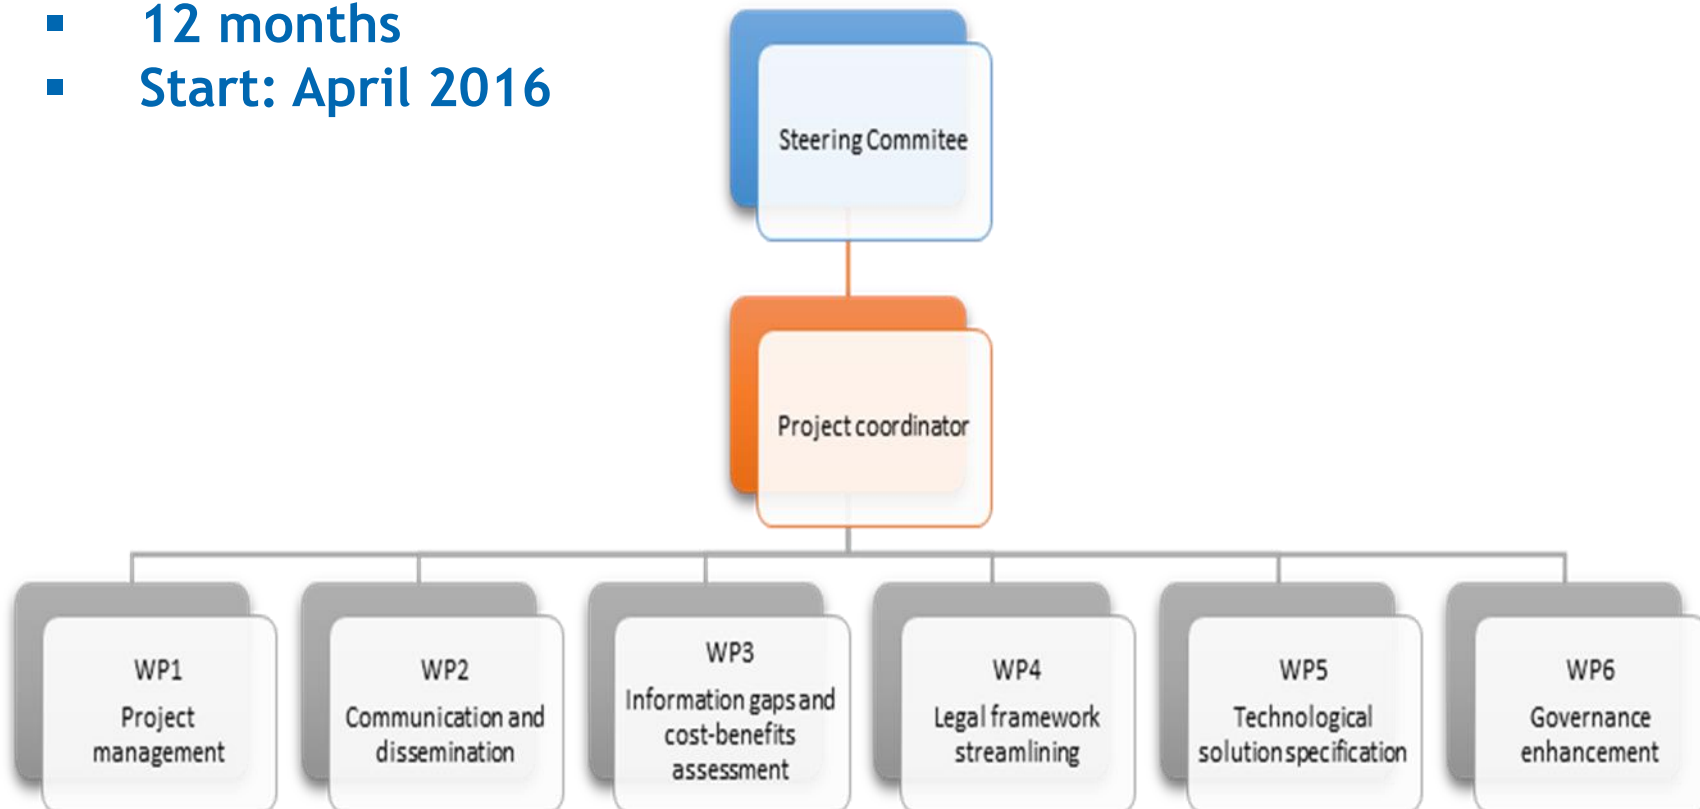

- Info sharing gaps analysis
- Info sharing cost-benefit analysis
- Legal framework study
- Legal handbook for info sharing
- Documentary on MS and info sharing
- Short video on MS and info sharing
- Technological architecture for info sharing
- National action plan for info sharing

# Participants

- **13 partners (7 CISE user communities)**
  - DGPM, AT, DGAM, DGRM, DGT, FAP, GNR, GPIAM, IPMA, MP, PJ, PM, PSIS
- **13 observers**
  - AMA, APA, AP-Açores, AP-Aveiro, APRAM, APSS, CNPD, DROTA, FDUL, GNS, ICNF, INESC TEC, SEF

# Methodology

- 12 months
- Start: April 2016

# PROJECT 602

IT developments

# 602

Technology 01

# Agenda

- Background
- Outcomes
- Outputs
- Participants
- Methodology

# Background

- Lack of information
- Duplicated information
- CISE initiatives' experience
- NIPIM@R project and product
- Low motivation for info sharing
- Distrust in a common tech. solution
- **Some services already available**
- **New services under development**
- **Cost-effective info sharing required**

# Outcomes

- **Fisheries control info available**
  - Services available with fisheries control info 3 (1)
- **Nautical leisure boats info available**
  - Services available with nautical leisure boats info 4 (0)
- **Improved early detection of anomalies**
  - Info entities relevant and available 6 (2)
- **Enhanced search and rescue**
  - Services relevant and available 5 (2)

# Outcomes

- **Pollution info available**
  - Services available with pollution info 5 (0)
- **Marine environment and fisheries info available**
  - Services available with marine environment and fisheries info 2 (0)
- **Info available to support police investigations**
  - Distinct services with vessels info available 3 (0)
- **Coastal and maritime risk info enhanced**
  - Services relevant and available 6 (0)

# Outcomes

- **Enhanced coherence between CISE and INSPIRE**
  - Architecture for integration at national level 1 (0)
- **Increased adoption of NIPIM@R**
  - Authorities with systems integrated 5 (2)
- **Increased motivation for info sharing**
  - Authorities sharing info 5 (2)
- **Increased systems integrated**
  - Systems integrated with NIPIM@R 11 (2)

# Outputs

- Fisheries control services - 3
- Nautical leisure boats services - 4
- Marine pollution services - 4
- Marine environment and fisheries services - 4
- Coastal and maritime risks services - 4
- Police investigation support services - 1

# Participants

- **7 partners (7 CISE user communities)**
  - DGPM, DGAM, DGRM, DGT, MP, PJ, PSIS
- **12 observers**
  - AMA, APA, AT, CNPD, GNR, GNS, IH, IPMA, PM
  - German Navy, Irish Coast Guard, Spanish Navy

# Methodology

- 12 months
- Start: April 2016
