

# EMODnet-Copernicus Marine Service 8<sup>th</sup> Coordination meeting

## EMODnet Biology

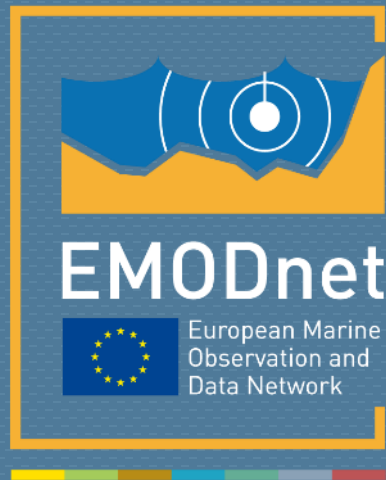

Joana Beja, VLIZ- EMODnet Biology

20 October 2023

---

## EMODnet Biology | Workplan priorities

- Continuous data publication efforts, especially those that contribute to decrease the current gaps (in species groups and marine regions)
- Workshop for data originators from non-EU Mediterranean countries, workshop on the use of a citizen science platform to rescue data
- Creation of new data products
- Engagement plan and workshop with RSC
- Report on progress for the publication of fisheries survey data (official EU monitoring data)
- Publication of omics data
- Streamline semantic interoperability
- Data infrastructure maintenance
