- **Copernicus Marine Service General Assembly** (5-9 June 2023)

- **EMODnet Open Conference 2023**

EMODnet – JPI Oceans Knowledge Hub on Sea Level Rise

- EMODnet Secretariat presentation at Kick-Off in 2020;
- EMODnet multiple contributions to Conference 2022: Main aim to assess the available and required scientific knowledge on regional-local sea level change in Europe.

- Assessment Report in finalisation
    - EMODnet Physics contributes to a number of Chapters;
    - EMODnet Secretariat co-leader the Task Group on Communications & contribution to assessment of existing capability for online ocean / climate map viewers with a view to potential development of specific capability for Sea Level Rise.

Description

The Knowledge Hub on Sea Level Rise is a networking platform promoting the generation, synthesis, exchange and integration of knowledge on local, regional and global, historic and future sea level rise.
