EMODnet

Overview of planned developments and data/product releases under current contract

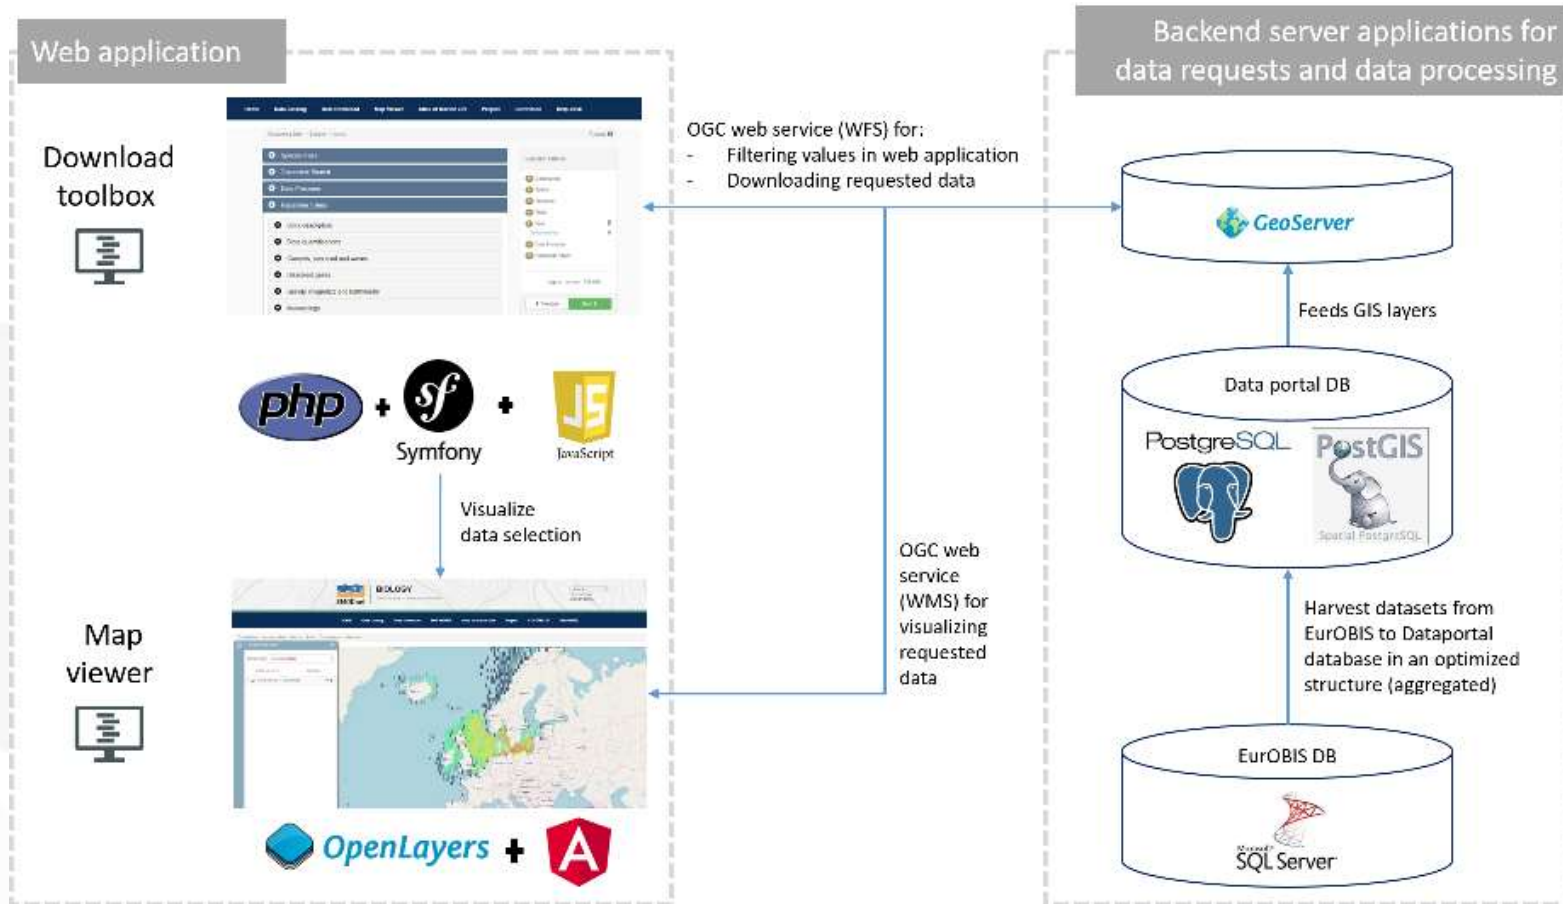

- ① Deliver three workshops in 2020:
 - WP2 and WP3 on data digitization, data entry, QC and publishing
 - WP4 data product
 - WP5 transatlantic data integration and product development
- ① Release data products created during the WP4 and WP5 workshops
- ① Continue developing/implementing data flows with partners
- ① Updates to Ocean Teacher online training for data formatting and QC
- ① Updates to Guidance on how to submit data to EMODnet Biology
- ① Changes in internal procedures on how data are harvested and published
- ① Intake of 16 new Associated Data Partners: provide training and assist with questions that will arise ahead or during their data submission
- ① Implement fitness for use label

EMODnet

Overview of technical architecture/infrastructure and key features relevant for future developments

EMODnet

General perspectives on new vision objectives (cf SC meeting item 4)

 The following slides can be taken from the ppt I sent to the SC meeting

EMODnet

European Marine
Observation and
Data Network

***Short, medium & long term implications of the
new EMODnet vision objectives
(cf SC meeting item 4)***

EMODnet
European Marine
Observation and
Data Network

Any technical recommendations and insights to support further developments (If you have any)
