MKEG

➢ *How meet needs of blue economy operators/enterprises*

➢ *How industry could demonstrate their CSR by providing data for the public good*

How to move closer to the needs of the industry?

To create more visibility

To work with users communities in more structural way

To engage actively with private sector stakeholders

E4B Showcase Meetings

1. European Dredging Association
2. IOGP - International Association of Oil and Gas Producers
3. SEA Europe
4. Cruise Lines International Association (CLIA)
5. European Digital SME Alliance
6. The Maritime Alliance
7. European Algae Biomass Association
8. WindEurope
9. Ocean Energy Europe
10. Aquaculture Advisory Council

→ *Priorities and opportunities*

Needs and applications from EMODnet Data

(1) *Salinity data for use in scrubber;*

(2) *Data to identify "same risk areas" (invasive species)*

(3) *Legal disclaimer on the use of data (e.g. to exclude liability of companies for the use of data submitted by them);*

(4) *Ship density maps*

(5) *Accurate map of all oil and gas installations;*

(6) *Weather forecast data (wave highs, storm surges, etc.) to apply safety measures for offshore activities;*

(7) *Showcase how EMODnet benefit for MSFD implementation and regional sea conventions obligations;*

(8) *Cumulative impact assessment*

(9) *Decommissioning*

(10) *Underwater noise*

(11) *Port reception facility for waste visualisation of*

(12) *map to locate algae biomass producers' facilities*

Towards a Blueprint on EMODnet for Business

Set of strong recommendations
