a collaborative European stakeholders forum on algae

EU4Algae Newsletter Contribution Guidelines

The EU4Algae aims to enhance visibility and encourage engagement through the publication of regular newsletters. These newsletters serve to provide a comprehensive update of the key research findings, business opportunities and innovations relevant to the algae industry.

With the first newsletter already published in May, we are now in the process of preparing for the subsequent edition #2 with a **deadline for submission by 13 October!**

Element	Description
Contribution Themes	Suggested topics include success stories, research findings, innovations in the algae industry, EU algae-funded projects and events.
Content Guidelines	Contributions should be relevant to the EU4Algae stakeholders' community, its objectives, or its thematic areas. We encourage pieces that highlight achievements, key initiatives, and impact stories.
Length and Format	Contributions should ideally be 300-500 words in length. If you want to include images or graphics, they should be high resolution.
Language	Submissions should be in English. Assistance with editing and proofreading is available if needed.
Submission Process	Contributions should be sent to contact@eu4algae.eu with a copy to oriana.baptista@eura-ag.de and laura.maragna@eura-ag.de
Contact Information	If you have questions or need further information, please contact us at contact@eu4algae.eu

We encourage all partners to contribute and share their experiences, updates, and success stories in alignment with the project themes. Please note that the themes may be further refined based on the activities carried out and results achieved by the time of preparation of each newsletter.

Thank you for your collaboration and contribution. Your input helps create a newsletter that truly represents the depth and breadth of the EU4Algae.
